

WEEKLY UPDATE

USH 51 PORTAGE

10/28/21

This week final landscaping and pavement marking were completed. Installation of traffic lights continues at the Dewitt and Wisconsin Street intersection.

Currently the plan is to open the roadway at the end of business on Friday for STH 16 and all side roads.

The Dewitt/Wisconsin Intersection will remain closed until the traffic signals are complete. The area in red below will be the only area on the project closed. The USH 51 detour will remain in place for through traffic until the intersection is complete. The contractor needed for final completion of the traffic lights is scheduled to be on site Monday however their work is weather dependent. If Mother Nature cooperates the project team is planning to open the Dewitt/Wisconsin intersection by the end of the day Monday and remove the detour and all remaining traffic control.

Motorists should be aware of construction personnel while punch list activities are being completed throughout the project area.
